

Ripstation 7000 Series

Professional Grade Video Ripping Systems

Fast, Reliable, Affordable

The RipStation from MF Digital is the most advanced commercial Disc Ripper available. Ideal for media aggregators, home entertainment specialists or service bureaus looking to expand their range of services, the RipStation 7600 Series is a perfect solution.

Engineered to perfection the RipStation is designed for long run disc ripping with absolutely no human intervention. Completely automated, the RipStation will extract video from CD or DVD, automatically, disc after disc. The RipStation video ripper supports format conversion and coding to all major file formats. The "KVM" PC built-in solution means each RipStation System is pre-configured which results in easy setup without error - simply connect Keyboard, Video Monitor and Mouse and begin ripping.

MF Digital offers unique features which other manufacturers do not. From the moment you open the box to the last disc of the day, you can count on RipStation.

Disc Ripping Abilities	
Batch Mode	Data Rip Sets of Discs
File Structure	Rip to Original File Structure
Backup	Ideal for CD DVD Archive or Backup

Ripstation 7000 Series

Media Grabber

MF Digital's Video RipStation offers more versatility and flexibility than any other ripping system. Video loading and backup is easy and automated with the RipStation video ripper. RipStation offers extremely accurate and consistent video ripping for every disc, saving you time and money.

Flexible Configurations

RipStation video ripper offers software configurations supporting format conversion and coding to all major file formats such as WMV, DIVX and AVI. Software features include specific storage locations to digitally archive your batch of DVDs to the exact location.

Ripping Accuracy

MF Digital's Video Grabber is a very reliable disc archiving tool, with full error correction verification support from the source disc to the digital copy. RipStation includes drive stop control, video metadata to XML format and automatic software updates to insure your RipStation has the latest features and benefits.

Multi-Threading File Mover

Maximum efficiency of Disc Ripping can be obtained from our multi-threading technology. Multi-threading means each drive in the RipStation works independently. This enhancement increases overall throughput performance and reduces the amount of time needed to rip a set of DVDs.
