Cost Effective

DISCSPENCER SYSTEM FEATURES

- 25 disc capacity CD/DVD disc publisher
- Built in robotic handler
- Integrated inkjet printer 4800 dpi
- Optimized footprint
- Enclosed unit
- Easy integration with Microtech's Universal API
- Bundled with MyDICOM software

FULLY AUTOMATED DISC PUBLISHER

DiscSpencer is the industry's smallest and most affordable disc publisher. It features an integrated CD/DVD recorder with inkjet printer and 25 disc automated handler. The innovative compact design provides automation for those seeking a small, reliable and affordable disc publishing solution.

OPTIMIZED PERFORMANCE

Designed for healthcare professionals who need to create and distribute small quantities of CDs and DVDs, DiscSpencer attaches to your PC or Laptop via USB cable. It frees up valuable time by completely automating the process of burning and printing your discs for you. DiscSpencer sets up out of the box in minutes. MyDICOM Software is included for your disc creation, burning and label printing requirements. An API is available for integrated publishing solutions.

Microtech Systems, Inc.

Disc Spencer

INCLUDED SOFTWARE

MyDICOM software is included with each DiscSpencer for the Healthcare industry. After simple configuration the MyDICOM software enables your DiscSpencer to attach to a Local Area Network receiving disc burning and printing requests from all accessible AE title devices on your network. MyDICOM software includes options for creating custom label design templates that can include high resolution color artwork and patient info. MyDICOM supports data encryption for the disc contents which can be password protected. MyDICOM comes with a basic DICOM viewer, and support for embedding your choice of third party viewers. The software provides the user with a simple interface for configuring and tailoring the DiscSpencer for specific installation requirements.

APPLICATIONS

DiscSpencer is ideal for just about any healthcare environment where physical CD and DVD media is being produced on demand for archive or distribution.
